Job Description | IT Consultant

About Educate Girls:

- Established in 2007, Educate Girls' is a non-profit that focusses on mobilizing communities for girls' education in India's rural and educationally backward areas. Educate Girls' scalable, replicable and sustainable program model resides on top of India's 'Right to Education Act'.
- From a 500-schools pilot in 2007, Educate Girls has metamorphosed into a 24,000+ schools, over 18,000 villages across more than 33 districts in the states Rajasthan, Madhya Pradesh, Uttar Pradesh & Bihar.
- Since inception, Educate Girls has enrolled 1.4+ million Out-of-school girls (OOSG); 1.9+ million children have benefitted from the remedial learning curriculum. Over 18.6 million total beneficiaries have been impacted from Educate Girls' program model. For more information log on to www.educategirls.ngo
- **In the next 10 years, Educate Girls aims to build one of the largest second-chance program - Project Pragati** - for adolescent girls and young women. The objective of Pragati is to create an ecosystem to enable 10th grade credentialing and access to better life chances for adolescent girls and women who have dropped out of the formal school-system. The goal is to transform 10 million lives in the next 10 years. For more information about the project, visit <https://www.educategirls.ngo/project-pragati/>

Role Overview: The IT Consultant will drive CGSOS's digital transformation by implementing technology-driven solutions to improve student enrollment, e-learning, examination management, and data analytics. The role requires developing scalable, low-cost IT interventions to support learners across urban, rural, and tribal regions of Chhattisgarh.

In this role, you will be responsible for:

1. Digital Enrollment & Student Management System

- Develop an automated online student registration system (mobile-friendly, accessible in regional languages).
- Integrate Aadhaar-based authentication & real-time tracking of student records.
- Set up SMS/IVR-based notifications for students in remote areas.

2. E-Learning & Digital Study Hubs

- Implement an LMS (Learning Management System) that supports self-paced learning.
- Ensure offline access to study materials, recorded lectures, and assignments.
- Work with district coordinators to set up tech-enabled study hubs across 33 districts.

3. Digital Examination & Certification System

- Introduce computer-based test (CBT) solutions for open school students.
- Automate result processing, certification issuance, and grievance redressal.
- Align CGSOS records with DigiLocker/National Academic Depository (NAD) for seamless certification access.

4. Data Analytics & IT Governance

- Develop real-time dashboards for tracking enrollment, dropout rates, exam performance, and learning progress.
- Ensure data security and compliance with government IT policies.
- Train CGSOS staff on IT system management & troubleshooting for sustainability.

Apply if you have:

- B. Tech in Computer Science/ Master of computer application (MCA)/ Post-Graduation in IT /Bachelor of computer application (BCA)/ PGDCA.
- Minimum 5 years' experience in the technology field with a demonstrable track record in Tech Application (website/Mobile) development.
- 1+ years of software project management experience, having led at least 1 end-to-end Tech application (website/Mobile) development project.

Attributes to be successful in this role at Educate Girls:

- Proven ability to collaborate with government stakeholders and IT agencies.
- Strong problem-solving skills to handle complex, fast-paced environments with tight deadlines.
- Open to traveling to program geographies for better requirement understanding.
- Fluent in English and Chhattisgarhi, preferably a resident of Chhattisgarh (Raipur) or willing to relocate.
